24.38
Allah continues to give to us as seen in His attribute of Al-Rahim. When we appreciate the gifts of Al-Rahman, Al-Rahim rewards us repeatedly. Al-Rahim directs us and encourages us to open the gifts of Al-Rahman by rewarding us with smaller gifts each time. Al-Rahim shows perpetual concern and mercy for all of His creation, and makes the road of life constantly distinguishable from the road of death.

Allah is Malik ~~of the Day of Judgment~~ ~~the Master of the Day of Judgment~~, the Master of the Day of Judgment. He and only He is the sole Master of anything. Nothing or no one else can truthfully claim to be the sole master over any single thing, no matter how small and minute, but Malik is the sole Master over everything. Only Allah completely owns anything, and that anything is everything. Not only does He completely own and administer to every insect, plant, mineral, creature, and man but He is the Master of every moment, every hour, every century, and every period of existence and that existence itself.

H.Q. 57: 1-3

Allah is the One and Only. He has always been and will always be. He is eternal and absolute and everything depends upon Him. Only He completely provides for anything, and He does it for everything. We can search far & wide, up and down, in and out for a partner to God, but each would be partner we may think we have found, would be created by God, sustained by God, provided for by God, directed by God, and owned by God, while God is created by none, sustained by none, provided for by none, directed by none and owned by none. Surely there is none comparable ~~up~~ unto Him.

Nafs = Soul - Mind - Nature

③ An Nafsil Mutma'Inna LXXXIX - 27

② An Nafsil Lawwama LXXV - 2

① An Nafsil Ammara VII - 53

Go to the Quran and pick the Arabic lettering of these phrases
Study the footnotes

Nafs - soul, mind, nature

① An Nafsil Ammara - PHYSICAL

represents the uncontrollable nature, the primitive mind, the physical nature prone to lust, anger,

We are subject to this base nature as long as we don't hunger for Truth.

Jihad against base nature brings us to,

② An Nafsil Lawwama - MORAL

represents the self-accusing conscience mind; we are somewhat free from the base nature. Gives restraint, and awareness of right and wrong. Come into the conscienceness of God and yourself.
Self-accusing self.

Don't admit or even recognize faults.

Begin to correct faults

We keep each nature in us, but as we grow, the more developed nature controls.

③ An Nafsil Mutma'Inna - Spiritual

That soul, mind, nature - that is at complete rest or satisfaction with his moral achievements.

These developements apply to all human developement. So this can be applied to an individual, to a school system, to a government, etc..

Prophet Muhammad - said he heard the steps of Bilal walking ahead of him in paradise. said his umma would return to its first supporters.

Syrian Ambassador - Strong Supporters
Morrocan Official - " " "

With strong Eastern support, we have the combination that brought Islam & the Prophet victory.

Traditions carry great Messages, But we need understanding to unlock the meanings.

In the Bible, and All Religions there are 2 Heavens
Heaven on Earth - Leadership in Religion when they come down, called coming down from heaven to earth.

Jesus was not in the heaven of Jews rather God raised Jesus up.

so Jesus sacrificed his heaven to bring heaven to the people.

Satan wants to get up to heaven so he can rule heaven and earth.

God's Prophet wants to bring heaven down to the people.

Do not sacrifice your earthly heaven waiting on a heaven of spirit. (Satan makes use of you)

Stop wicked behavior in earth and we can reverse this earthly hell, and bring the garden back.

Revelation - City of Light, with a lot of squares (equality) $12 \times 12 = 144$
12 - is the number of the ^{whole} world
12hr - day 12 - zodiac Signs
12hr - night

All the hours shall be given to God, when the city of light comes to earth as a reality + to give you hope for spiritual heaven.

A.Q. tells us man made by nature to give his whole life to God - if man is not doing this he is following artificial forces.

So God sends Prophets, who are contended with by the wicked until the Last Day when Gentiles reach their fullest Gentiles - brought to fullness by wicked forces of Judaic scripture + Jacobite influence.

Gentile Fullness - corruption, racism... etc
Satan is transformed into Angel of Light, Satan wants to capture God's Kingdom and righteous servants of God. And that is what has happened.

His way is to make you feel comfortable with corruption.

Angel - messenger of Truth

America life is not Christ like, it is Devil like.
We have been conditioned to believe that
truth has no hope, righteousness has no hope,
the devil is stronger than God.
Don't even have the courage to pray this truth.
You don't have your own mind, you have
an artificial mind.

Caucasian God

Not only hurts us, but keeps the
Caucasian from growing into anything
greater than a Caucasian.

Satan is powerful.

Allows you to have the truth in front of you
and not see it.

Bible says make no image,

yet Christian accept + ~~start~~ an image.

An image worse than a stone, wood, or fire,
the image of Christ is more destructive.

Unequality of encouragement from image for
Caucasian + men of color.

Who has seen God? Nobody. Who has seen Jesus? Everybody.

Since we have been teaching in NOI, they have
changed the Blond hair + blue eyes to a more Jewish
look of Brown eyes + Dark hair.

Master just had a small knowledge of the lethal weapon
and trigger to blow your brains out in the Bible.

Emam put Bible down as a guidance + picked
it up as a weapon.

If God can guide the earth into existence, into form into order; same with life out of the earth; do you think God is going to stop guiding.

If you are sincere and turn your heart completely to God, He will guide you.

Other Muslims have been helpless in bringing Islam to America; This leadership the only successful one in bringing us into a natural mind.

The world is not going to join pure + righteous things, those pure + righteous must pull them out of the corruption.

Not asking you to be Muslims like in the East, asking you to be Muslims like Prophet Muhammad.

Thank God for this leadership. God won't grow and develop you in Islam if you can't recognize the greatness of N.D.M.

Just as Arabs followers of Prophet, our container is more empty than any other people, so God can give us more.

Muhammad

Needs a witness, someone to support what he did.

We must have the courage to come out and introduce the champion in its full glory.

Chief Commentary

The humble who realize that God is the one and only, and continue to worship himself are blessed with how to deal with rich & beautiful learned society

No sister in her normal mind has ever thought that God is a Man. You can force her to say it, but never will she believe it.

Natural Evolution of Spiritual Knowledge in World

1. Man worships natural elements
- 2.
- 3.
- 4.

Finally He worships himself until he realizes that only God is God and He has no image.

When you get to the new season, you must wear the clothes of the new season.

Government is helpless, under the same influence of society

There is One God, and your pray goes straight to God. Worship of God is the power to save yourself.

Give yourself to that power.

God gives us good guidance ~~for~~ good life, not good life.

God doesn't give us daily bread, He gives us knowledge to get bread.

Mind is not God. Mind can be corrupted, kill.

Need a test school - to test ourselves - parents
to test the children - to see
how much they can produce.
We need to show leadership.
Proposed: That in Sept. the school be put under
Emam W. D. Muhammad personal supervision.
The School a top priority because it
gives the opportunity to execute the
new ideas.

Don't call Master Elijah - Messenger because it is scripturally incorrect.

His message was a message from man, not a message from God.

But he did a wonderful job as seen in his great reform. Thank Allah if you were blessed to be effected in a good way. Some became worse.

False ideas keep you from developing.

See the NOI in a capsule, analyze it from bottom to top, and put it on the shelf. A Great history, don't throw it away, put it on the shelf.

We have been known to change peoples lives with just words. We are known for being able to change the worst in society. Let us not lose this.

① Bright hope to establish new leadership in education. Studying the text books, + education policies. Must lead as policy makers + make a contribution to America. Don't be shortsighted, A committee to take on full responsibility for ed. deve.

②. No longer should we accept the Caucasian image of Divinity.

The people who were the most hated, hateful etc in + of America, in 2 years have made the conversion into true believers of democracy and humanitarian ideas

We must now live our commitment

We must remove that image.

What would happen to Caucasian children if they were given a ~~Black~~ image.

There is coming a time when people will just kill that mind that holds on to the white Jesus image.

This image has not been taken out. Three centuries has put that image so deep into us that nothing can get it out but face to face confrontation.

Ex - Nigger slap a white man, they say that Nigger done lost his mind - the mind that they put us in.

Sweep from our community the image of divine in Caucasian flesh.

Form a committee for Cultural Shifter
This American cultural is not fit for Human Beings
We must censor what comes into our community.

Our neighborhoods will never improve until we form an army to go into the neighborhoods with knowledge - a planned, mapped out strategy - to give people sensible knowledge to live by.

Our people have never been given the proper knowledge of what the family should be, community should be, city life should be.

We need a Consumer Respect Committee
Inferior products are sent to our community
Organize + stop this.

We need an independent study group to
study our economic activity.

Let us first find out where we are.

Clothing: hides what you don't want to show
makes you look presentable

We don't want nuns + monks, get married.

Life Preservers

We come into the knowledge of true life,
feed, protect, sustain + preserve the life
Prescription found in H.Q.

Self-righteous — heard the answer,
don't have the answer until we live it

Sura 51

You don't have to wonder what God wants, H.Q.
defines man's nature.

1st Law in Nature - Self - Preservation

You have a responsibility to preserve the life
God has given you

Ex - Turtle. Shell - backbone

Institution - Allah foresaw that man may lose sight of outer creation, so he put in self as many signs as in creation

Fetus (very vulnerable) protected in womb by pelvic bones of mother, peritoneum, and water.

Allah is saying life is valuable, important; it deserves protection until it can protect itself. Not the physical life, because it fades away naturally. Speaking of a higher life

① 5 Senses - guide us to reality make us respond to natural creation. Automatic response to light & dark, hot & cold. Begin to bring us into human life. There to preserve our lives.

But God did not tie our lives to our senses - EX Man + cigarettes
Dog + something nasty
Loud music

Allah has given you the ability to be a caliph or the possibility to be a fool.

This world has destroyed our natural relationship with our senses.

② Moral Conscious - a natural development from the knowledge of the senses. Senses saying what's good-bad, for-against. Naturally human beings begin to know what is right + wrong.

The power of consciousness is so strong that it will let you know before you get there.

The impulse of consciousness comes every time.

use body as launching pad.
Body a sign.
Earth, Wind, Fire, no water

Compare Conscious mechanism with balance mechanism in ear.

The more unnatural you get, the more unnatural you must become.

③ Ascendent Spirit
